

Kit demo ESL con system software di campionamento etichette scaffale da 2,1 / 2,9 / 4,2 pollici

What is Electronic Shelf Label

Electronic shelf label (ESL) is an electronic display device that can replace traditional paper price tags on shelves. Each ESL is connected to the mall computer database through the network, and the products information such as the latest price is displayed through the screen of the ESL.

First LCD Label
The first ESL appeared in Europe

LCD Label was used by METRO
