WINDFORCE 3X COOLING SYSTEM

The 3X unique blade fans feature alternate spinning and screen coating for efficient heat dissipation.

The large copper plate and heat pipes enhance heat dissipation.

Screen-cooling

Extended fanless design allows for flow to pass through, providing better heat dissipation.

RGB FUSION 2.0

With 16.7M customizable color options and numerous lighting effects, you can choose lighting effects or synchronize with other AORUS devices.

PROTECTION METAL BACK PLATE

The metal back plate not only provides an aesthetic shape, but also enhances the structure of the graphics card to provide complete protection.
