

**Портативная электростанция мощностью 300 Вт,
использующая солнечную возобновляемую энергию, решает
проблему внезапных аварийных отключений электроэнергии**

Best for
desert
island

survival

Multiple Outputs and Hours of Power

 **1**
Car refrigerator
5+ hours

 Car Outlet
5+ hours

 **2**
Rice cooker
5+ hours

 Electric fan
5+ hours

 **3**
Notebook
6+ hours

 Cell phone
20-30+Times

 **4**
Camera
20-30+Times

 Game console
5+ hours

Product Details

01 LCD Digital Display

02 DC Output

03 LED Light

04 type-C Output

05 USB Output

LCD Digital display

Easily to know the working status

Hole Of Strap

Comfortable Strap Design

Unique silicone DESIGN

to better protect the car charger Can be opened manually

Product Details

- 01 Hole Of Strap
- 02 Heat Emission Hole
- 03 AC Output
- 04 DC Input

AC Output

110V/60Hz (Max300W)
APPLICable For Japan

Comfortable handle

Intimate and comfortable
handle design

Heat emission hole

Intelligent temperature
control effectively protects
the power supply

Superior Safety

-  Input High-Voltage Protection
-  Output High-Voltage protection
-  Input Current Regulation
-  Automatic Current Matching
-  Input Short-Circuit Protection
-  Device Overcharge Protection
-  Static Resistance
-  Output Short-Circuit Protection
-  Output Current Regulation
-  Battery Overdischarge Protection
-  Output Temperature Control

Hours of Power

Laptop 50W
6+ hours

Drone about
5+ Times

Digital camera
20-30+Times

Smartphone
20-30+ Times

MINI refrigerator 60W
5+ hours

32 inch TV 60W
5+ hours

CPAP 40W
8+ hours

Car Outlet
5+ hours

EXTENSIVE APPLICATION

Let's Go Places with Power
