SHA256 Algorithm Mining Experience

The Antminer S9k allows miners to fully experience mining under the SHA256 Algorithm, receiving cryptocurrency earnings.

Classic Upgrade, More Energy-Savings

Upgrading from the Classic Antminer S9, utilizing a new chip design process achieves a power efficiency of 85 J/TH.

Aluminum Alloy Body Exterior

The miner's body exterior utilizes high-grade materials, which can provide strong protection and thermal conductivity, improving the overall heat dissipation performance of the miner.

High Temperature Protection

Built-in high temperature protection mechanism ensures for a safe and reliable operation of the mining machine.
