Carte graphique colorée RTX 3070 Battle X non LHR ou LHR avec 12 Go pour l'exploitation minière et la plate-forme GPU

GEFORCE RTX 3070
COLORFUL
The GeForce RTX 3070 is powered by the NVIDIA Ampere architecture. Built with enhanced RT Cores and Tensor Cores, new streaming multiprocessors, and high-speed G6 memory, it gives you the power you need to rip through the most demanding games.
High-quality electronic components
The excellent electronic components can lower the electric loss when the video card is working to save energy and increase efficiency.
Selected GPU core
The GPU core selected through many technologies drastically improves the experience with the latest games.
iGame center
Highly integrated iGame center provides better control effects.
