- DirectX™ 12 and Vulkan® support
- For information on AMD Radeon™ VR Ready Premium visit amd.com/VRready

[3] Does not support all features including but not limited to Hardware Accelerating

WINDFORCE 3X COOLING SYSTEM

The 3X unique blade fans feature alternate spinning and screen coating for efficient heat dissipation.

The large copper plate and heat pipes enhance heat dissipation.

Screen-cooling

Extended fanless design allows for fans to pass through, providing better heat dissipation.

RGB FUSION 2.0

With 16.7M customizable color options and numerous lighting effects, you can choose lighting effects or synchronize with other AORUS devices.

PROTECTION METAL BACK PLATE

The metal back plate not only provides an aesthetic shape, but also enhances the structure of the graphics card to provide complete protection.

WARNING:
This product contains electrical components that may be hazardous to your health if used incorrectly. Read the user manual before handling.
* Hardware Raytracing support requires the use of compatible graphics cards and processors. Visit amd.com/raytracing for more information.
