

GRACEFUL AND CONFIDENT

Smart dual reminder

Vibration correction reminder

Voice reminder

Automatically record sitting posture

Manual/smart dual mode

Comfortable to wear

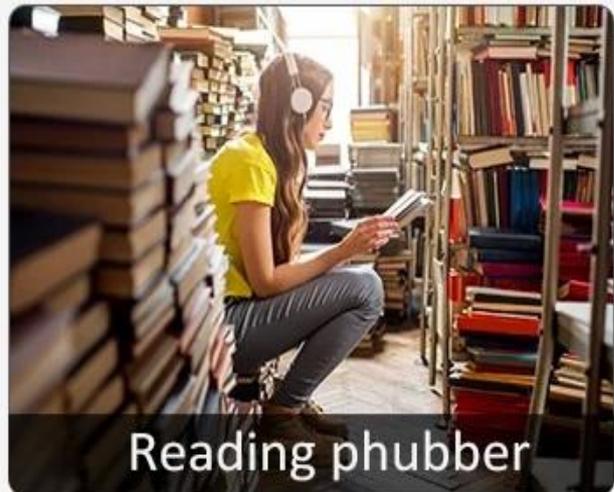

Upright posture/enhance temperament

Target users

We are sitting most of the time. Poor sitting posture will cause us problems such as vision loss, chest hunchback, backache, neck stiffness, spine curvature, etc

Students

Office sedentary

There are so many posture correctors, why choose this one?

Smart posture correction is more scientific

Traditional posture corrector

External force stretch
Compression muscle
One-dimensional vibration reminder
Record every boot
The use process is cumbersome

Smart reminder posture corrector

- ✓ Real-time angle monitoring
- ✓ Multi-dimensional & dual reminder
- ✓ Comfortable shoulders
- ✓ Smart recording of sitting posture
- ✓ Develop autonomous habits
- ✓ Technology Cool Design

Traditional Correction Belt

External force stretch
Compression muscle
Bondage sultry
No smart reminder
Rely on external force to correct

Maintain a scientific posture

Children in class, and white-collar workers can use intelligent posture correction devices to assist in forming scientific sitting habits, and say goodbye to shoulder pain.

Before use

Listless
Influence image

After use

Head up and chest out
Confident and elegant
