Octa core lightning speed

Colors

Display 5.0 inch, 720x1280 pixels IPS OGS
Camera front: 5.0MP rear: 13.0MP
CPU Mediatek MT6592 1.7GHz Octa-core
ROM 16GB
RAM 1GB
Band GSM 850 / 900 / 1800 / 1900 MHz WCDMA 850 / 2100 MHz

Mali-450 graphics processor performance doubling

Mali-450 graphics processor, the overall performance of up to twice the Mali-400, supporting Full-HD 60fps, graphics core frequencies up to 700MHz, Triangles per second and render 152M 2.8G pixels. Easy to run the latest 3D games, smooth playback 1080P HD video, Built-in powerful MAGE 3D engine, play games watch videos smoothly handy.

1GB (RAM) +16 GB (ROM)

The perfect combination of memory
Xpress storage capacity easily run large games,
Smooth playback of HD video, easily qualified
for multi-tasking
Games, movies, music, storing all important
documents,
More storage, more fun.

2200mAh Battery
Support for fast charging

1.7GHz High-performance & low-power octa-core processor

The world's first eight-core processor that can run simultaneously.
28nm process, with a quad-core mali 450 GPU,
Frequency up to 700MHz, supports full HD video wide screen decoding format, Full-HD1080P display, but also the world's first full HD supports H.265 video processor.

Perfect Screen

5.0 inches, OGS/IPS 720P 16:9 HD Ultra
retina screen.
Pixel density up to 294PPI, beyond the visual
limits screen resolution.
Every detail, more realistic color reproduction.

Frequency

GSM 850/900/1800/1900 MHz
WCDMA 850/2100 MHz

Dual sim cards
dual standby
It will not messy call
