

Colorful rtx 3070 graphics card battle x non lhr or lhr with 12gb for mining and gpu rig

GEFORCE RTX™ 3070

COLORFUL®

The GeForce RTX™ 3070 is powered by the NVIDIA Ampere architecture. Built with enhanced RT Cores and Tensor Cores, new streaming multiprocessors, and high-speed G6 memory, it gives you the power you need to rip through the most demanding games.

High-quality electronic components

The excellent electronic components can lower the electric loss when the video card is working to save energy and increase efficiency.

Selected GPU core

The GPU core selected through many techniques typically improves the experience with the latest games.

iGame center

Highly integrated iGame center provides better control effects.

Colorful Group (CFG), is a manufacturer of motherboards, graphics cards, all-in-one PC, memory & SSD, industrial server, computer case, power supply, Hi-Fi player, industrial integration solution and services with over 25 years of experience delivering quality products garnering a brilliant reputation amongst its customers. CFG is an internationally renowned brands garnering recognition and awards.

NVIDIA AMPERE ARCHITECTURE

• **New Streaming Multiprocessors**
Improve throughput and efficiency within the same GPU for a huge leap in performance.

• **New Ray Tracing Cores**
Deliver greater throughput and efficiency for a whole new level of ray tracing performance.

• **New Tensor Cores**
Increase gaming performance with DLSS and enable new AI capabilities.

GEFORCE PLATFORM HIGHLIGHTS

• **Game Ready Drivers and GeForce Studio Drivers**
Give you the best performance and stability in the top games and creative applications.

• **GeForce Experience™**
GeForce Experience delivers the latest drivers, optimal settings, and new features.

• **NVIDIA® ShadowPlay™**
Let you capture and share your best gaming moments.
