

**Портативная электростанция мощностью 300 Вт, использующая солнечную возобновляемую энергию, решает проблему внезапных аварийных отключений электроэнергии**

**Best for  
desert  
island**

**survival**

## Multiple Outputs and Hours of Power

 Car refrigerator 5+ hours	<b>1</b>  Car Outlet 5+ hours
 Rice cooker 5+ hours	<b>2</b>  Electric fan 5+ hours
 Notebook 6+ hours	<b>3</b>  Cell phone 20-30+Times
 Camera 20-30+Times	<b>4</b>  Game console 5+ hours

## Product Details

01 LCD Digital Display

02 DC Output

03 LED Light

04 type-C Output

05 USB Output

LCD Digital display

Easily to know the working status

Hole Of Strap

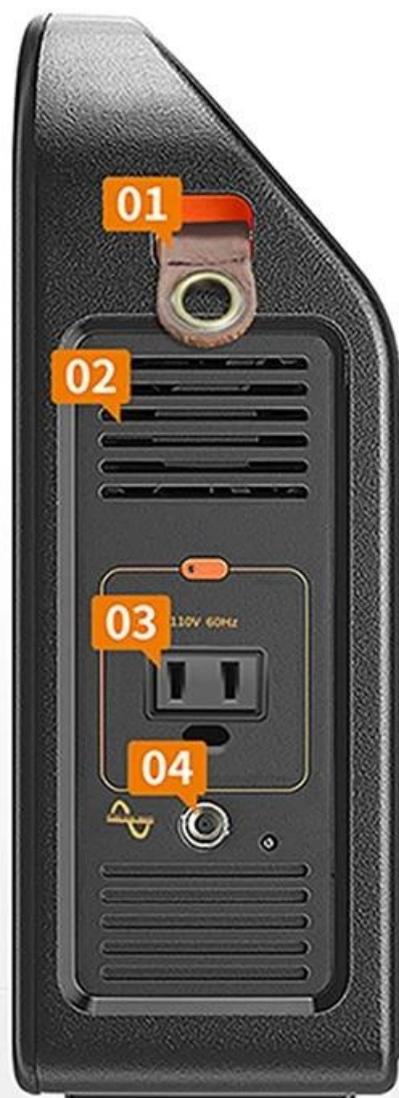

Comfortable Strap Design

Unique silicone DESIGN

to better protect the car charger Can be opened manually

## Product Details

- 01 Hole Of Strap
- 02 Heat Emission Hole
- 03 AC Output
- 04 DC Input

### AC Output

110V/60Hz (Max300W)  
APPLICABLE For Japan

### Comfortable handle

Intimate and comfortable  
handle design

### Heat emission hole

Intelligent temperature  
control effectively protects  
the power supply

# Superior Safety

-  Input High-Voltage Protection
-  Output High-Voltage protection
-  Input Current Regulation
-  Automatic Current Matching
-  Input Short-Circuit Protection
-  Device Overcharge Protection
-  Static Resistance
-  Output Short-Circuit Protection
-  Output Current Regulation
-  Battery Overdischarge Protection
-  Output Temperature Control

# Hours of Power

Laptop 50W  
**6+ hours**

Drone about  
**5+ Times**

Digital camera  
**20-30+Times**

Smartphone  
**20-30+ Times**

MINI refrigerator 60W  
**5+ hours**

32 inch TV 60W  
**5+ hours**

CPAP 40W  
**8+ hours**

Car Outlet  
**5+ hours**

# EXTENSIVE APPLICATION

## Let's Go Places with Power
